1. **Your total outsourcing window & door component partner ...**
2. **Industry's most comprehensive offering of shapes, profiles, colors and options ...** We are wide and deep i.e. if you can draw it, we can make it.
3. **Customized services for color and profile matching, artistic design and engineering support ...** From single components to large turn-key projects, we can help you every step of the way.
4. **Inventors and owners of five patents for Decralite grid products...** We create, design and produce Decralite to save you time, labor, energy and money.
5. **Specialists in patented processes ...** Our employees are cross-trained on the fast production of specialty grids & windows for architectural shapes and special customization.
6. **Scaleable proprietary equipment for one-of-a-kind or volume orders ...** Our two facilities include redundant support, to ensure you have what you need when you need it.
7. **Our manufacturing process is environmentally friendly ...** Everything we manufacture is recyclable, including grids, glass and frames.
8. **Well connected to your industry...** As a leader in glass and specialty shapes, we have long-standing relationships with reputable suppliers and vendors.
9. **Made in the USA ...** Custom Glass Products has been American owned since it's founding in 1971.

Why Choose DFC From CGP?

A Door Fabrication Components program with options for every residential and commercial application.

1. DFC's Color Core raw materials are stainable, paintable and made from recycled materials. The solid color throughout drastically reduces maintenance.
2. DFC is available in 8' lineal bars and custom lengths with options for surface embossing and matching shoulders.
3. 99% of DFC shipments are on-time requiring less distributor inventory resulting in faster upgrades, enhancements and improvements.
4. CGP are specialists in patented door component processes with the industry's most comprehensive, value-added program.
5. CGP is the market leader and supplier of door components to millworks, big box and 99% of door distributors, with additional training, support, and equipment options.
